HEARING PROTECTION SERVICES

Overview of iPlugz®-BT Sports Headset, continued

Charger and Battery

- Before charging, make sure the headset is switched off.
- Plug USB cable into the charging port of the headset. Plug the other end of the US cable into the USB charger or other charging device.

Charging time is approximately 1.5—2 hours. The red light will switch off after charging is completed.

WARNING: To avoid damage, use the provided cable to charge the iPlugz®-BT Sports Headset. Charger voltage must be 5V. Available electric current must be 100mQA or more. (≥5V/100mA.)

Power On

Press the Multi-Function button until blue lights blink and the headset issues a voice.

Pairing Mode

Press the Multi-Function button until the blue and red lights blink alternatively and the headset issues a voice.

Switch Off

Press the Multi-Function button until red lights blink and go out and the headset issues a voice.

To pair your iPlugz®-BT headset with your mobile phone

Keep the distance between the headset and mobile phone (or other device) within 1 meter. The closer, the better. Press the Multi-Function button until blue and red lights blink and the headset issues a voice to enter pairing mode.

4

When the Bluetooth™ function of mobile phone (or other device) is activeated, "iPlugzBT" will appear on your phone's display. Select "iPlugzBT" (some mobile phones require you to input PIN "0000"), the headset will automatically connect with your mobile phone, and blue lights will blink.

NOTE: Maximum time to pair the headset with your device is two minutes. If connection does not occur, retry steps 1-4.

To Disconnect The iPlugz®-BT Sports Headset From Your Mobile Phone

Turn off the Bluetooth™ function of your mobile phone.

Or, press the Multi-function Button until the red lights go out.

Or, take the headset to more than 60 ft. (20 m.) away from the phone.

To Reconnect The Paired iPlugz®-BT Sports Headset With Your Mobile Phone

Keep the distance between the headset and the mobile phone (or other device to be connected) within 1 meter.

Switch on the headset. Reconnection mode is indicated by blue lights blinking.

Turn on the Bluetooth™ search function of your mobile device and the headset will reconnect with the previously connected device.

To answer incoming calls

The headset will issue a voice message to indicate an incoming call. Press the MF Button to answer it.

5

To Reject a Call

Press the MF Button twice to reject a call.

To End a Call

Press the MF Button once or use your phone.

To Redial the Last Call Dialed

In Standby Mode, press the MF Button twice.

To Play or Pause Music

Press the MF Button once.

To Adjust Volume

Press Vol+ or Vol– Button once.

To Select Music

Press Vol+ or Vol– Button continuously to select previous or next track.

Troubleshooting and Frequently Asked Questions

Headset does not pair with mobile device

Check that the headset is in Pairing Mode.

Check that the Bluetooth™ search function of your phone is turned on, delete/forget the headset, then reconnect following the instructions on previous page.

Headset disconnects from phone within 10 meters

Remove metal or other objects between the headset and the phone, as they may interfere with Bluetooth™ reception.

Cannot hear sounds from connected device.

Check that the output channel of your device is set to Bluetooth™ Audio. Check that the Bluetooth function of your device supports the A2DP profile.

Volume Control cannot be used to select tracks in some installed apps on mobile phone.

Check the software settings of the app. (Some functions of some apps may not be controllable by the headset).

Intermittent sound while in use.

Incoming text/email messages, news feed notifications, gaming prompts, lost phone signal will result in intermittency when listing to music signal. Most of this can be resolved by turning off your notifications while in long-term use.

Is the headset battery replaceable?

No, this headset uses a built-in, nondetachable Li-Polymer battery. It cannot be removed.
